Greetings once again from Mexico where exciting things are happening!

In January we were up in the mountains of Veracruz, in the middle of the Totonacan Indian tribes. There were more than 1200 people that showed up each night in the auditorium that the church rented for the event!

In 1995, twenty-five students graduated from the video Bible School provided by OREMEX Ministries at that time. They had each started a church and since then have multiplied those 25 original churches. Here is Valente with many of the students who are continuing in full-time Christian Service as pastors and teachers and leaders!

Now as we near the month of **March**, we are once again in big preparations for the 32nd annual conference in Chalchocoyo, San Luis Potosi, in the heart of Mexico. This will begin on the 10th of March and end on Thursday (with a big banquet for all in attendance) honoring Valente for his 50 faithful years in the ministry! There are some great things planned for this occasion and we appreciate your prayers that young and old preachers alike, as well as all who attend, might be challenged in the Word to be **faithful** in the ministry that God has called them to! This is the theme for the conference.

Then **in February** we were near in the big port city of Tampico where we had our tremendous Congress. The hosting church was feverishly striving to finish all the final touches on their new church building to ready it for the all-day conferences. At night we held the services, once again, packed out, in the brand new gym/auditorium that the city is building. We were the first to rent it! We praise the Lord for many young people who made vows to keep themselves pure and Godly for the mate that God has for them someday. That was just one great result of the theme, "Dilemmas of today's society." (Including divorce, abortion, drugs, etc.)

50 years

Thank you very much for your prayers and continued support for our ministry. We couldn't do it without you, and thank the Lord for your most vital part in this ministry!
